Curriculum Vitae

Date of birth 26.09.1982

School education

August 1988 till July 1994	Siegerland Grundschule	Berlin, Germany
August 1994 till October 1994	Hans-Carossa-Oberschule	Gymnasium, Berlin, Germany
October 1994 till July 2001	Freiherr-vom-Stein-Oberschule Abitur (final grade: 2,4)	Gymnasium, Berlin, Germany

Civil service

August 2001 till May 2002 Co-worker in the center of distribution of the „Krankenhaus Spandau“

University education

October 2002 till January 2009	Technische Universität Berlin Studies of Energy and Process Engineering
April 2005	Vordiplom (grade: good)
September 2007 till April 2008 (<u>abroad</u>)	Student Research Project at University of New South Wales, Sydney, Australia, at UNESCO Centre for Membrane Science and Technology Topic: Experimental study of backwashing procedures for membranes used in Direct Contact Membrane Distillation
July 2008 till January 2009	Diploma Thesis at Technische Universität Berlin at the Chair of Chemical and Process Engineering Topic: Numerical investigation of the single bubble ascent between flat sheets
January 2009	Diplom-Ingenieur der Verfahrens- und Energietechnik (Graduated engineer in Process and Energy Engineering) Grade: very good
February 2009 till June 2015	PhD student at Technische Universität Berlin at the Chair of Chemical and Process Engineering Topic: Comparison of single bubble and bubble swarm behavior in narrow gaps inside flat sheet membrane modules
June 2015	Doktor der Ingenieurwissenschaften (PhD) Grade: passed with distinction (summa cum laude)

Activity during studies

December 2005 till September 2007 Student co-worker with teaching duties in "Energy, momentum and mass transfer II" at Technische Universität Berlin at the Chair of Chemical and Process Engineering

Internships

June 2002 till August 2002	Abex Metallverarbeitung GmbH	Berlin, Germany
March 2005 till April 2005	Korsus Hansa Heizungstechnik GmbH	Berlin, Germany
October 2006 till April 2007 (<u>abroad</u>)	Sulzer Chemtech AG, Research and Development Section	Winterthur, Switzerland

Professional Career

January 2009 till April 2015	Research Assistant with teaching duties at Technische Universität Berlin, Chair of Chemical and Process Engineering
August 2010 till October 2010 (<u>abroad</u>)	Research visit at the University of British Columbia at Department of Civil Engineering (Filtration Technology Group of Prof. Dr. Pierre R. Bérubé), Vancouver, Canada
April 2015 until now	Research Assistant (PostDoc) with teaching duties at Technische Universität Berlin, Chair of Chemical and Process Engineering
February/August 2014/April 2019-2021	Parental leave (2014: 100%, 2019-2021: 50%)

Research fields (publication list attached)

Topic of the PhD thesis	Fluid dynamic investigation of multiphase flows with respect to membrane module optimization
After graduation additionally	Transport phenomena in reactive Newtonian and non-Newtonian multiphase systems

Expertise in the fields

Fluid dynamics	Particle Image Velocimetry Electrodiffusion method Computational fluid dynamics
Imaging	High speed camera imaging Automated image processing
Furthermore	Measurement of material properties Rainbow Schlieren Laser Induced Fluorescence Membrane filtration Mixing technology Automation (LabView) Statistical data processing (Matlab, Excel)

Third party funding

Successful proposals at	DAAD, DFG (SFB/TR63, SPP1740, SPP1934), AiF-ZIM and TU Berlin-interne Strukturförderung
officially (co-)acquired third party funding	(since 2016) approx. 1,7 M€ (unofficially involved approx. +0.3 M€)

Supervision of PhD students

Co-supervision of up to appr. 20 PhD students	
Official (co-)principal investigator	SPP1740 "Mass transfer of rising gas bubbles in reacting liquids" (2 nd funding period) SPP1934 "Interaction of mechanical stresses and productivity of biological agglomerates in (aerated) stirred fermenters" (1 st , 2 nd funding period) SFB/TR63 A10 "Gas/liquid mass transfer in reactive multiphase systems" (3 rd funding period) DFG Research Grant "Spatially resolved measurement of transient concentration and temperature fields using Schlieren and LIF technique"

Teaching

Lectures	Physikalische Chemie (Physical Chemistry) Energie-, Impuls- und Stofftransport IIA (Energy, momentum and mass transfer IIA, in parts) Energie-, Impuls- und Stofftransport IIB (Energy, momentum and mass transfer IIB) Verfahrenstechnik I (Process Engineering I)
----------	--

Tutorial	Verfahrenstechnik II (Process Engineering II, in parts) Membranverfahren (Membrane processes) Physikalische Chemie (Physical Chemistry, in parts) Analytische Übung zu Verfahrenstechnik I (Tutorial for Process Engineering I, in parts) Analytische Übung zu Verfahrenstechnik II (Tutorial for Process Engineering II)
Integrated lecture	Rechnergestützte Problemlösungen für die verfahrenstechnische Praxis (Computer based problem solving in process engineering, with Matlab and Excel)
Project	Verfahrensplanung (Process Design)
Practical Tutorial	Betrieb verfahrenstechnischer Maschinen und Apparate (Operation of process engineering machines and apparatuses)
Theses	Supervision of diverse Bachelor, Master and Diploma theses (list attached)

Organizational activities (selection)

Academic self-administration	Member of the Scientific Working Group in the Faculty Council of Faculty III at Technische Universität Berlin (2015-2017 substitutional, full member since 2017) Member of the Scientific Working Group in the steering committee of Faculty III at Technische Universität Berlin (full member since 2017) Member in the appointments committees for the professorships „Mechanical process engineering“, „Thermodynamics and Thermal process engineering“ and „Measurement and control“ Member of the WG „Support plan for women“ of the Faculty III at the Technische Universität Berlin ERASMUS representative of the Chair of Chemical and Process Engineering
(Co-)Organization of	Student trips to ACHEMA 2012/2015 „Symposium Verfahrenstechnik - Zwischen Gestern und Morgen“ 2015 1 st TU Berlin CFD User Meeting 2011 1 st TU Berlin Faculty III PostDoc Meeting 2017

Guest Editor

MDPI Processes, Special Issue: “Multiphase Mass Transfer and Phase Equilibrium in Chemical Processes” 2022

Reviewer for Journals

Chemical Engineering Communications, Chemical Engineering Research and Design, Chemical Engineering Science, Chemie Ingenieur Technik, Desalination and Water Treatment, Engineering Reports, Experimental Thermal and Fluid Science, Journal of Membrane Science, Journal of Non-Newtonian Fluid Mechanics, Korea-Australia Rheology Journal, Microgravity - Science and Technology, Open Water Journal, Proceedings A, Sensors, The Canadian Journal of Chemical Engineering, Water Research

Reviewer for Organizations

Deutsche Forschungsgemeinschaft (DFG; German Research Foundation)

Applications for professorships

September 2019	1 out of 4 invited candidates for the “W1-Juniorprofessur für Wärme- und Stoffübertragung” (W1 professorship with tenure track “Heat and Mass transfer”) at Otto-von-Guericke University, Magdeburg
----------------	---

Further qualifications

Laser safety officer
Biolab safety officer

Berlin, 01.10.2022

Lutz Böhm

List of publications from Lutz Böhm

(October 2022)

PhD thesis

Böhm, L. (2015) Comparison of single bubble and bubble swarm behavior in narrow gaps inside flat sheet membrane modules. PhD thesis, Technische Universität Berlin. (board: Bérubé, P. [University of British Columbia], Kraume, M. [Technische Universität Berlin], Schlüter, M. [Technischen Universität Hamburg-Harburg], Ziegler, F. [Technische Universität Berlin])

Articles in Journals

h-index	11
no. of original publications in peer reviewed journals with impact factor	22
no. of citations of the most frequently cited publication	111
pct. of first, prior to last and last authorship for the 10 most cited articles	80%
total citations	481
