

## **Inn(t)o-the-green: Shaping the Landscapes of the Future. (6 LP)**

Enough of sitting inside the university, talking about the problems of our planet, while they are already waiting outside to be solved by you?

Join our new **Projektwerkstatt: Inn(t)o-The-Green!** Let's go out and apply your knowledge and skills with like-minded people in hands-on projects to find solutions for problems in a changing climate!

### **Where?**

Take a rest from the city and get **into nature!** Next to weekly workshops at TU Berlin and self-organized group meetings, a beautiful area outside of Berlin is offering free space to learn about and test potential solutions for climate change's challenges – **an open-air real-life laboratory** instead of a lecture hall (+ a lake close by to rest after a long day of work).

### **What?**

In **project teams**, you and your fellow students develop ideas in **ecology, technology, sustainable management, or community engagement**. From a permaculture gardening concept, over the implementation of a water and renewable energy systems to environmental education or a semester-ending community event to share the harvest: There's so much to do to face today's and tomorrow's challenges!

### **Projects this semester:**

- Syntropic planting
- Water collection
- Irrigation system
- Solar energy
- Soil and space design
- Greenhouse / foil tunnel
- Your idea...?

### **How?**

Access to various resources, including **workshops and field trips**. You will also have the chance to learn about the importance of cooperation and community building **in sustainable living**. Develop skills in **communication, teamwork, leadership as well as project design and evaluation**. As the challenges and solutions affect the whole planet, the common language will be English, and we wish to bring together **students from different parts of the world** to share their perspectives.

**What's next?** Make a positive impact in your community and the world and **enroll yourself now at:** <https://forms.gle/5YdZtg9CyeMsaSF59>

**Kick-Off-Meeting:** Wednesday, 18.10.2023, 16:00 – 18:00 h, ER 201

**Workshops:** Every Wednesday, 16:00 – 18:00 h, ER 201

**Registration:** <https://forms.gle/5YdZtg9CyeMsaSF59>

**ISIS-Course:** Self-enrollment, <https://isis.tu-berlin.de/course/view.php?id=35214>

**Credit Acknowledgment:** 6 ECTS
