List of Relevant Mathematical Courses

for the application to the Master's program Scientific Computing at the Institute of Mathematics, TU Berlin. Please fill in this form and submit it along with your application.

Name of Applicant:

Area Analysis/Linear Algebra

Course Name	Brief description of course contents	Credits	Grade

Area Differential Equations

Area Numerical Analysis

Average number of credits per semester:

Average number of credits for degree completion:

If your list of courses is too long, then please use a second form and combine both into one pdf file.
